

Roses Roasted Rye

Any doctor will tell you that it has within itself more of the elements which go to make up a perfect food than any other cereal, not excepting wheat.

It is the one natural food which has just the proper amount of starch in it to produce energy without troubling the digestion.

It is the one cereal which has natural laxative properties, where most all others are astringents.

*It is the one cereal which has in it all the sources of brain energy, fitting it to be the food for the student and brain worker, the food which not only digests rapidly and is ready to make bone and tissue within an hour after it is eaten. It helps the digestion to take care of all other food. Try it.

COTTON.

Crop Improves.
New Orleans, La., June 29.—Liverpool prices are constantly declining. Spot sales are restricted to a small volume of trade on both sides. The cotton market has the argument of small sales which indicate that trade is influenced by improved crop conditions. The weather conditions on this side show a considerable amount of improvement and reports of progress here.

RAILROAD NEWS.

MUSIC EMPLOYED TO INFLUENCE STRIKERS

A Strange Performance at Sanderson—G. H. Official Files Complaint.

Sanderson, Tex., June 29.—A crowd of striking G. H. Mexican section men and friend sympathizers gathered at the section house here and made speeches to the men who are working, in an effort to get the men to join them. The visitors had a string band and after every speech a patriotic Mexican piece was played. No violence occurred.

However, assistant superintendent Hoover, of the G. H., made complaint to local peace officers, alleging that "an unlawful assembly of people gathered at the section house, getting into when the peace of that house."

C. G. Pennington, the section foreman, being called to make complaint, declared on oath that "he wasn't getting into his bag as he had expected, that he knew what he was getting into when he accepted strike with the railroad to take a strike's place; that he had been continuously since the 15th of June, but had never been struck; that he did not desire any protection and would not make a complaint against any one unless he was badly harmed."

No names of any violators of any criminal law were given to the officers by Mr. Hoover. Jesse McFie.

RAILWAY CONSTRUCTION EXPENSIVE IN EUROPE.

The total capital invested in railways of the world is \$31,184,000,000, according to statistics published by a German periodical and gathered from official reports up to and including the year 1908. The total mileage of the world is 911,478 miles, of which 274,275 is in North America. The statistics of capital show that 176,905 miles of railway in Europe is represented by \$21,459,270,000, which is very nearly as much as the capital of \$35,286 miles in other countries, making approximate average of \$121,323 of the world and \$85,100 for the rest of the world.

TEXAS FIGHT PANS THROUGH EL PASO; MUCH LOCAL INTEREST

A party of 45 people from San Antonio, Houston and points along the G. H., passed through El Paso Wednesday morning en route to Reno, Nev., to witness the big fight Monday. The local ticket offices are receiving many inquiries as to rates and schedules, and the optical shops report brisk sales in opera glasses.
